The Financial Proposal shall remain sealed until all submitted Technical Proposals are opened and evaluated. The BEAC has the option to open the Financial Proposal publicly or not.

9. Evaluation of Proposals

- 9.1 After the Proposals have been submitted to the BEAC and during the evaluation period, Service Providers that have submitted their Proposals are prohibited from making any kind of communication with any BEAC member, as well as its Secretariat regarding matters connected to their Proposals. Any effort by the Service Providers to influence IOM in the examination, evaluation, ranking of Proposal, and recommendation for the award of contract may result in the rejection of the Service Provider Proposal.

10. Technical Evaluation

- 10.1 The entire evaluation process, including the submission of the results and approval by the approving authority, shall be completed in not more than fourteen (14) calendar days after the deadline for receipt of proposals.
- 10.2 The BEAC shall evaluate the Proposals on the basis of their responsiveness to the Terms of Reference, compliance to the requirements of the RFP and by applying an evaluation criteria, sub criteria and point system. Each responsive proposal shall be given a technical score (St). The proposal with the highest score or rank shall be identified as the Highest Rated/Ranked Proposal.
- 10.3 A proposal shall be rejected at this stage if it does not respond to aspects of the TOR or if it fails to achieve the minimum technical qualifying score which is seventy percent (70%).
- 10.4 The technical proposals of Service Providers shall be evaluated based on the following criteria and sub-criteria:

	<u>Points</u>
(i) Specific experience of the Service Providers relevant to the assignment:	20
(ii) Adequacy of the proposed methodology and work plan in response to the Terms of Reference:	
a) Technical approach and methodology	25
b) Work plan	20
c) Organization and staffing	15
Total points for criterion (ii):	60
(iii) Key professional staff qualifications and competence for the assignment:	20

The minimum technical score (St) required to pass is: seventy (70) Points.

- 10.5 Technical Proposal shall not be considered for evaluation in any of the following cases:
- a) late submission, *i.e.*, after the deadline set
 - b) failure to submit any of the technical requirements and provisions provided under the Instruction to Service Providers and Terms of Reference (TOR);

11. Financial Evaluation

- 11.1 After completion of the Technical Proposal evaluation, IOM shall notify those Service Providers whose proposal did not meet the minimum qualifying score or were considered non-responsive based on the requirements in the RFP, indicating that their Financial Proposals shall be returned unopened after the completion of the selection process.

- 11.2 IOM shall simultaneously notify the Service Providers that have passed the minimum qualifying score indicating the date and opening of the Financial Proposal. Financial proposals shall be opened publicly in the presence of the Service Provider representatives who choose to attend.
- 11.3 The BEAC shall determine the completeness of the Financial Proposal whether all the Forms are present and the required to be priced are so priced.
- 11.4 The BEAC will correct any computational errors. In case of a discrepancy between a partial amount and the total amount, or between words and figures, the former will prevail. In addition, activities and items described in the Technical proposal but not priced, shall be assumed to be included in the prices of other activities or items.
- 11.5 The Financial Proposal of Service Providers who passed the qualifying score shall be opened, the lowest Financial Proposal (F1) shall be given a financial score (Sf) of 100 points. The financial scores (Sf) of the other Financial Proposals shall be computed based on the formula:

$$Sf = 100 \times F1 / F$$

Where:

Sf is the financial score of the Financial Proposal under consideration,
F1 is the price of the lowest Financial Proposal, and
F is the price of the Financial Proposal under consideration.

The proposals shall then be ranked according to their combined (Sc) technical (St) and financial (Sf) scores using the weights (T = the weight given to the Technical Proposal = 0.80; F = the weight given to the Financial Proposal = 0.20; T + F = 1)

$$Sc = St \times T\% + Sf \times F\%$$

The firm achieving the highest combined technical and financial score will be invited for negotiations.

12. Negotiations

- 12.1 The aim of the negotiation is to reach agreement on all points and sign a contract. The expected date and address for contract negotiation is **13.07.2020** and is expected to be conducted online through a platform acceptable to all parties.

- 12.2 Negotiation will include: a) discussion and clarification of the Terms of Reference (TOR) and Scope of Services; b) Discussion and finalization of the methodology and work program proposed by the Service Provider; c) Consideration of appropriateness of qualifications and pertinent compensation, number of man-months and the personnel to be assigned to the job, and schedule of activities (manning schedule); d) Discussion on the services, facilities and data, if any, to be provided by IOM; e) Discussion on the financial proposal submitted by the Service Provider; and f) Provisions of the contract. IOM shall prepare minutes of negotiation which will be signed both by IOM and the Service Provider.
- 12.3 The financial negotiations will include clarification on the tax liability and the manner in which it will be reflected in the contract and will reflect the agreed technical modifications (if any) in the cost of the services. Unless there are exceptional reasons, the financial negotiations will involve neither the remuneration rates for staff nor other proposed unit rates.
- 12.4 Having selected the Service Provider on the basis of, among other things, an evaluation of proposed key professional staff, IOM expects to negotiate a contract on the basis of the experts named in the proposal. Before contract negotiations, IOM shall require assurances that the experts shall be actually available. IOM will not consider substitutions during contract negotiation unless both parties agree that the undue delay in the selection process makes such substitution unavoidable or for reasons such as death or medical incapacity. If this is not the case and if it is established that staff were referred in their proposal without confirming their availability the Service Provider may be disqualified. Any proposed substitution shall have equivalent or better qualifications and experience than the original candidate.
- 12.5 All agreement in the negotiation will then be incorporated in the description of services and form part of the Contract.
- 12.6 The negotiations shall conclude with a review of the draft form of the Contract which forms part of this RFP (Section VI). To complete negotiations, IOM and the Service Provider shall initial the agreed Contract. If negotiations fail, IOM shall invite the second ranked Service Provider to negotiate a contract. If negotiations still fail, the IOM shall repeat the process for the next-in-rank Service Providers until the negotiation is successfully completed.

13. Award of Contract

- 13.1 The contract shall be awarded, through a notice of award, following negotiations and subsequent post-qualification to the Service Provider with the Highest Rated Responsive Proposal. Thereafter, the IOM shall promptly notify other Service Providers on the shortlist that they were unsuccessful and shall return their unopened Financial Proposals. Notification will also be sent to those Service Providers who did not pass the technical evaluation.
- 13.2 The Service Provider is expected to commence the assignment on **01.08.2020**.

14. Confidentiality

14.1.1 Information relating to the evaluation of proposals and recommendations concerning awards shall not be disclosed to the Service Provider who submitted Proposals or to other persons not officially concerned with the process. The undue use by any Service Provider of confidential information related to the process may result in the rejection of its Proposal and may be subject to the provisions of IOM's anti-fraud and corruption policy.

Section V. Terms of Reference

A. Introduction

Established in 1951, IOM is the leading inter-governmental organization in the field of migration and works closely with governmental, intergovernmental and non-governmental partners. With 169 member states, a further 8 states holding observer status and offices in over 100 countries, IOM is dedicated to promoting humane and orderly migration for the benefit of all. It does so by providing services and advice to governments and migrants. IOM works to help ensure the orderly and humane management of migration, to promote international cooperation on migration issues, to assist in the search for practical solutions to migration problems and to provide humanitarian assistance to migrants in need, including refugees and internally displaced people. It does so by providing services and advice to governments and migrants.

Germany has been a member of IOM since 1954, thus is one of the longest standing members. The official seat of IOM in Germany is in Berlin. There is a sub-office in Nuremberg, Brandenburg and a presence at the airport in Frankfurt am Main. In close cooperation with governmental and non-governmental partners IOM Germany implements national and international projects in the area of migration.

The main areas of activity in Germany are:

- Assisted Voluntary Return and Reintegration
- Third Country Migration
- Counter Trafficking
- Integration

This includes the REAG/GARP programme, return counselling centers, information on the countries of return and specific reintegration support.

The IOM mission in Berlin is also the liaison office for cooperation on migration international IOM projects in the areas of humanitarian aid, peace-building and combatting human trafficking, which are supported by the German government.

Within these terms of reference, IOM is looking for a service provider to cover all aspects of escorting returnees suffering from illness or disease under the programme REAG/GARP. For better understanding of the high IOM demands for medical escort services, in the following text the requirements will be explained in detail.

B. Description of the programme REAG/GARP and its needs for medical escorts

1. General Programme Objectives

The International Organization for Migration assists migrants who voluntarily return to their home countries or migrate to a receptive third country, by providing logistics/financial support.

In 1979, the German Ministry for Family, Youth and Health gave IOM the authority to implement the Reintegration and Emigration Program for Asylum-Seekers in Germany – REAG Programme. In 1989, the program was then complemented by the Government Assisted Repatriation Program – GARP Programme, which was initiated as a supporting measure and financed by the Ministry of the Interior. Effective from 1st January 2000, the Ministry of the Interior took over the entire responsibility for both programs. As of 2010, the European Return Fund participates as part of the Project “Nationwide financial assistance to voluntary returnees” in the funding of the program. The REAG/GARP-Program is implemented by IOM on behalf of the Ministry of Interior (BMI) and the respective German Federal States’ ministries, who jointly finance the program. The co-funding by the European Return Fund for the Project “Nationwide financial assistance to voluntary returnees” has been requested for 2013.

The REAG/GARP-program is a humanitarian program assisting with financial and operational support the voluntary return and migration to third countries. It offers start-up assistance for defined nationalities and serves as a steering instrument for migration movements. The migrants eligible to benefit from the program are asylum-seekers, rejected asylum-seekers and recognized refugees as well as war and civil-war refugees, victims of forced prostitution or trafficking and other foreigners (eligible under § 1 AsylbLG, the German asylum seekers’ benefit Act), as well as migrants who have been granted residence due to humanitarian or political reasons.

The application of financial assistance within the programme REAG/GARP is organized in cooperation with German authorities, welfare organizations, specialized counselling centres, central information centres for voluntary return, and the United Nations High Commissioner for Refugees (UNHCR). To obtain REAG/GARP assistance, the appropriate applications can only be submitted through these authorities and organizations. Nationwide IOM works together with more than 1000 German authorities.

Within the framework of the program, the German Government grants the following types of assistance (defined in the Information booklet of REAG/GARP 2020):

- Payment of travel costs (e.g. by plane or bus)
- Additional travel assistance
- Initial start-up cash as well as financial and/or in-kind reintegration assistance to people from countries that are particularly relevant in terms of migration
- In-kind post-arrival assistance for serious/severe medical cases

Since the beginning of this program, IOM Germany has so far assisted more than half a million people to voluntarily return to their home countries or emigrate to a third country.

2. Operational Context and Scope

Migrants suffering from illness or disease may need medical assistance during the movement phase of their journey. Those with significant medical conditions, including patients in intensive/palliative care as well as unaccompanied minors, may need the assistance of a physician or nurse, defined as a medical escort (ME). The potential service provider is required to facilitate medical personnel for individual escort cases depending on the patient's diagnosis and current condition.

Medical escorts have a responsibility to provide the best possible care to the migrants under the existing circumstances. Escorts therefore need to have sound professional judgment and clinical skills commensurate with the range of clinical events that a specific medical case might entail. This requires familiarity with the conditions involved, expertise in the management of those conditions, an understanding of aviation medicine, and experience with emergency medicine.

Medical or nursing qualifications alone are not adequate criteria. The escort must be capable of managing the medical condition of the passenger during travel as well as dealing with any unexpected complications or emergencies that may arise during the journey. Escorts should be mature and balanced, with travel experience.

In addition to satisfactory medical knowledge, the candidate must possess valid visa or entry rights to the countries in question and be fluent in the English language to communicate with aircraft personnel and other persons involved in travel and in case of a medical emergency. Knowledge of additional languages relevant to the medical case and/or travel route is an asset. Where and if necessary, an adequate interpreter might be engaged.

Medical personnel working with IOM in the framework of voluntary assisted return must be able to effectuate a medical escort to all countries covered under the REAG/GARP program.

C. Description of requested services

1. General responsibilities

The overall scope of required responsibilities range from the preparation phase of a return of a patient with medical needs to the country of origin to the safe handover of the assigned passenger at the final destination point. In general, the expected duties are as follows:

1. Follow recommendations by the MHD Focal Point per each case and coordinate closely.
2. Prior to departure meet and evaluate the patient to be escorted, check medical documentation and make necessary preparations for the assignment. If required, request clarifications as appropriate or decline the escort assignment if according to medical escort's professional opinion travel of the

patient possesses a serious risk to his health or life.

3. Provide Pre-embarkation check confirming final fitness to travel.
4. Provide all necessary medical care and support of designated passenger(s) during the journey and accompany these persons to an agreed handover point.
5. Extend general in-flight and on-the-ground support to passengers traveling under the auspices of IOM as circumstances require.
6. Ensure that passengers with individual medication carry their prescriptions and supplies with them in their hand baggage.
7. Ensure that designated patients are handed over to a responsible entity and that unescorted onward travel connections are completely understood by the passenger, accompanying family members or continuing non-medical escorts, and partner agencies.
8. Not change or modify the transportation routing unless the patient's condition warrants such change. In such a case the medical escort is required to get in touch with the sending IOM Mission (and/or transit mission, if applicable) immediately in order to decide upon alternative routing. Should the sending mission not be reachable, the escort needs to contact the IOM Mission in the receiving country to report on the developments and Inquire after travel possibilities to final destination.
9. Not take diversions, extensions to travel, leave or stopovers unless arranged and approved prior to travel and only after the handover of the assigned passenger at the agreed final destination point.
10. Accommodate any changes in routing or schedule imposed by the carrier.
11. Upon handover of the beneficiary(ies) to the receiving party, fill in the Migrant Handover Notification and have it signed by the receiving party. Submit the Migrant Handover Notification Form within one week after the completion of duty.
12. Comply with IOM's Data Protection Principles in relation to the processing of the personal data of the passenger(s).

Assigned REAG/GARP staff is responsible for coordinating special travel arrangements for returnees with health needs under the project. The assistance can be organized through communication with the attending physician or respective clinic and through monitoring the preparations by the air carrier.

2. Escort preparation

The potential service provider (medical escort) is requested be involved in preparing the safe and appropriate travel conditions for returnees with medical conditions. The proposed activities during the preparation phase for individual escort cases are as follows:

- 1) Review the medical file and history of the patient(s) requiring escorting and, (where possible or if necessary) get in contact with the treating physician who has diagnosed the patient; confirms that a completed MEDIF form has been submitted if required; a copy is provided to the escort;
- 2) Review the itinerary, taking note of the duration, availability of special arrangements (e.g. oxygen) and IOM support in transit points;
- 3) Agree to comply with procedures relating to management and or transfer of the passenger in case of an unplanned change in the routing or destination;
- 4) Confirm passport validity;
- 5) Ensure valid entry/exit visas in the countries of transit and/or destination;
- 6) Guarantee adequate immunization status;
- 7) Provide a photocopy of medical license or registration;
- 8) Where appropriate, book hotel at port of entry (POE) or at final destination, taking into account appropriate handover schedule;
- 9) Read and understand IOM's SOP Guidelines on Medical Escort Services.

3. Pre-departure tasks

During the immediate pre-departure phase, the assigned medical escort is required to:

- 1) Introduce themselves and brief patients and their families (if applicable) on the escort plan prior travel. Patients should be briefed on what to expect from the ME service, including the responsibilities of a ME towards escorted cases (e.g. escorted cases and their families should be aware that the escort is required to remain in close proximity to the escorted case throughout the journey).
- 2) Clinically evaluate the medical case, if possible together with the treating physician, and confirm that the patient remains fit for travel:
 - a) If the medical case is no longer fit for travel, the MHD Focal Point and the IOM Operational Staff (OPS) must be immediately notified and arrangements made for further medical care;
 - b) If the medical status of the case has improved to the extent that an escort is no longer necessary, this should be discussed with the MHD Focal Point and consequently OPS.
- 3) Familiarize themselves with the medication and dosing regimen of the patient and confirm that the patient has an adequate supply of medication to cover the travel and initial period of at least 2 months (if applicable).

4. In-flight care

Passengers with known medical conditions requiring escorting during flights have special needs that have to be addressed. In addition to that, the safety of cabin crew and other passengers need to be taken into account as well. Therefore, the assigned medical escort is responsible for the following tasks during flight:

- 1) Assist escorted passengers with embarkation and disembarkation.
- 2) Advise aircrew of all medical equipment used or intended to be used.
- 3) Remain in close proximity to persons in care and not travel in a different class or cabin.
- 4) Constantly monitor the condition of persons in care during travel. This relates not just to specific medical conditions but also to general health issues during flight related to reduced cabin pressure, low ambient humidity, and prolonged immobilization. Adequate hydration needs to be maintained, with alcohol and caffeine avoided.
- 5) Ensure that medications are taken as scheduled. Ensure that supplementary oxygen is properly delivered when required.
- 6) Monitor and record parameters such as blood pressure, pulse rate, and respiratory rate regularly for persons with cardiac or respiratory disease in the Medical Escort Report Form within one week after completion of the duty.
- 7) Bring any medical emergency or significant deterioration in a passenger's condition to the attention of airline cabin crew immediately.

5. Delay of Onward Travel due to Clinical Deterioration

Should the medical condition of the escorted passenger clinically deteriorate, a safe and responsible onward journey needs to be assured. In such a situation, the medical escort is required to fulfil the following tasks:

- 1) Accompany the patient until the agreed point of transfer as defined prior to departure. The escort should be prepared to respond to conditions that may necessitate changes precipitated by clinical deterioration of a passenger's condition, or rerouting by the carrier.
- 2) Remain in proximity to the passenger as deterioration of the passenger's condition through medical complications or accident may require hospitalization, specialized intervention or interruption of the journey.
- 3) Liaise closely with personnel providing treatment as well as the responsible OPS involved in the transport. The escort should not leave the person in their care until there is an appropriate handover to the person or entity responsible.
- 4) Seek advice from the sending IOM mission, nearest MHD unit or MHD HQ. If that cannot be arranged, the escort, in coordination with their supervisor will have to make the final decision in the best interest of the escorted patient and the rest of the movement based on best judgment.

6. Arrival at Port of Entry (POE)

Upon arrival at the port of entry in the destination country, the medical escort is expected to assist his assigned passenger with the following tasks and comply with subsequent requirements:

- 1) Report to IOM staff upon arrival if available at POE, who will assist in entry and immigration process in accordance with local customs, immigration, and security requirements. Escorts are subject to the same laws and requirements as any other arriving passenger, including random security checks.
- 2) For those continuing on domestic flights following arrival, patients and escorts may be transported to a local hotel for next day connections if same-day connections cannot be arranged and the client condition has remained stable. If the client condition is unstable or deteriorates at the point of transit, the escort should contact local IOM staff for advice on available health services and request their assistance in arranging access to these services (such as hospital admission, if necessary).
- 3) Ongoing health supervision and care of passengers and the provision of assistance for onward transportation.
- 4) Take responsibility for the safe custody of own baggage and that of their assigned passengers.

7. Handover

Once the journey to the final destination is complete, the patient is to be handed over by the medical escort in compliance with the following procedure:

- 1) Handover escort case to the family, representatives of the sponsoring volunteer agency, medical personnel or IOM staff at final destination.
- 2) Obtain written evidence of the handover (Migrant Handover Notification Form).
- 3) Assist with medical handover appointments and provide details of the case to the prospective caregivers.
- 4) Should the ME not fly back the same day, they are responsible for the hotel booking before the travel starts. Escorts are not to contact NGOs or other voluntary agencies involved in resettlement to arrange their accommodation.

8. Ambulance flights and ground-based transport

In case the patient is deemed to be unfit for travel by commercial flight, the Service Provider shall organize ground-based transport or ambulance flight to the final destination. Conditions and prices shall be negotiated on a case by case basis. The Bidder shall prove capacities to organize such travels in the Technical Proposal.

IOM shall assume ownership of personal data collected directly from data subjects or collected on behalf of IOM, unless otherwise agreed, in writing, with a third party.

12. OVERSIGHT, COMPLIANCE AND INTERNAL REMEDIES

An independent body should be appointed to oversee implementation of these principles and to investigate any complaints, and designated data protection focal points should assist with monitoring and training. Measures will be taken to remedy unlawful data collection and data processing, as well as breach of the rights and interests of the data subject.

13. EXCEPTIONS

Any intent to derogate from these principles should first be referred to the IOM Legal Affairs Department for approval, as well as the relevant unit/department at IOM Headquarters.
